

RotoSpa pH Increaser

Key Features/Characteristics

- 🔑 Powder for increasing pH

Ideal pH Range: 7.2 – 7.6

Test the pH of your spa water and if it is below 7.2, use RotoSpa pH Plus to raise it.

Application Instructions

1. Pre-dissolve the product in a clean plastic container at a maximum rate of 10g of product per 0.2 gallons (1ltr) of clean warm water. Stir well to ensure product is fully dissolved. Carefully add the resulting solution to the spa whilst the pump(s) are turned “on”.
2. After a minimum of 30 minutes, recheck the pH level and if necessary repeat the treatment until the ideal pH is established.

Dose rates		
Litres	Gallons	Dose rate
1,000	220	11g
1,500	330	17g

Please note: a number of treatments may be required.
